She loves her work environment because ever since she was a child she always wanted to be a teacher, one of the satisfactions that she has is that she'd have the opportunity to work with children from two years to 14 years of age. She loves what she does and she thinks that when someone is passionate about something , the results are much better. To her students, she wants to be the person who inspires them, and that you know that if you can achieve what you set out to do, let them know that they are already leaders of the new generations and the community from where they come. During her free time she loves reading, dancing, going to the movies, swimming and cycling.
